# Digital tools for real-time collaboration

| Tool | Description | Usability | Version |
|------|-------------|-----------|---------|
| **Linoit** | It's a virtual bulletin board where online stickies can be populated with resources like videos, web links, images, and text. | Through it, you can collaborate on ideas, organize media, and engage in group activities using sticky notes and shared notes. | FREE |
| **Slack** | It's a tool for creating a workspace for effective teamwork. The key to productivity in Slack is organised spaces called channels, a different one for everything you are working on. | Through it you can create channels for organising teams and work; chat, meet online, record and share updates. | FREE 👑 |
| **Kahoot! Team Mode** | It's a tool to nurture collaboration, teamwork, leadership skills and good communication. | Through it you can boost collaboration through playing learning games, team vs. team, instead of player vs. player. | FREE |
| **Moodle** | It's a toolbox for managing online learning, an open source learning management system. It can support up to 100 languages. | Through it you create courses tailored to the learning environment, to the specific needs, with a possibility of tracking advancements. | FREE |
| **Scratch** | It's a coding platform and language with a simple visual interface for children to create digital stories, games, and animations. It's available in over 70 languages. | Through it you can create digital stories, games, and animations. | FREE |

# Digital tools for real-time collaboration

MOOC4Tutors

| Tool | Description | Usability | Version |
|------|-------------|-----------|---------|
| **Cypher** | It is an AI-powered platform to help educators to engage students, save time, track performance and progress. Supports over 50 languages. | Through it you create engaging content for your classes; personalise student content based on goals and performance; learn about AI, gamification, etc. | FREE 👑 |
| **Kialo Edu** | It's a classroom-specific version of Kialo, simplifies tracking discussions' logical structure with a clear, visually compelling format, fostering thoughtful collaboration. | Through it students engage in structured online discussions, promoting collaboration. Teachers can use it for planning larger writing projects. | FREE |
| **Microsoft Teams** | It is a workspace for real-time collaboration and communication, meetings, file and app sharing. | Through it you can pull together a team; use chat instead of email; securely edit files at the same time; customize it by adding notes, web sites, and apps. | FREE 👑 |
| **Zoom** | It is a communications platform that allows users to connect with video, audio, phone, and chat. | Through it you can schedule real-time meetings with video, audio, and numerous additional features. | FREE 👑 |
| **Skype** | It is a software for making free video and voice one-to-one and group calls, sending instant messages and sharing files with other people. | Through it you can have meetings and create great things with your work group. | FREE 👑 |
